Customer Journey Map

Map out the customer's experience stage-by-stage, capturing their actions, touchpoints, thoughts, and feelings, along with process ownership and improvement opportunities at each stage.

Phase of Journey	**Stage 1** **Explore & Discover**	**Stage 2** **Analyze & Compare**	**Stage 3** **Decide & Act**
Actions *What does the customer do?*	• Opens the Olympic dashboard on the website • Reviews KPI cards: athletes, sports categories, nations • Scans the world map and the medal trend	• Filters by Country, Year, Sport Category and Region •Compares sport categories by medals per athlete •Compares investment, efficiency and regions	• Summarizes key insights • Shortlists sports and regions worth supporting • Shares the story or dashboard link
Touchpoint *What part of the service do they interact with?*	• Dashboard 1: KPI cards (athlete participation, sports categories, nations) •World map: total medal achievements across nations •Line chart: trend of total medals awarded over the years	•Avg medals per athlete by sport category (bar chart) •Global performance metrics by country with the KPI Selector •Dashboard 2: investment vs medal performance (bubble) and average efficiency by region (pie)	• Comparing medal totals across Olympic hosts (bar chart) • Regional medal efficiency and distribution by sport (donut chart) • Tableau story and Tableau Public share link
Customer Thought *What is the customer thinking?*	• "What is the overall picture of Olympic medals?" • "Which countries win the most medals?" • "Can I read this data quickly?"	•"Which sport categories give the most medals per athlete?" •"Which nations win many medals for their investment?" •"Which regions are the most efficient?"	•"Which sports and regions should we support next?" •"Do host nations win more medals at home?" • "Can I explain this clearly to others?"
Customer Feeling *What is the customer feeling?*	Curious but a little overwhelmed by the amount of data across 60 countries, 50 sports and 18 Games.	Engaged and focused. Filters and the KPI Selector make comparison feel easy and insightful.	Confident and satisfied, with clear evidence to support decisions and a story to share.
Process Ownership *Who is in the lead on this?*	The analyst (Nandini Sethiya) keeps the data and dashboards up to date; strategists and journalists review the KPIs.	The sports strategist and investment analyst lead the comparison; the analyst supports with filters and calculated fields.	The strategist and investment analyst lead decisions, and the journalist leads the storytelling; the analyst supports with the story and published link.

Opportunities *How canweimprove this stage?*	• Add short KPI descriptions in tooltips • Add a short how-to-use note on the dashboard • Highlight top countries automatically	• Add a country search / compare mode • Add benchmark lines for top nations • Link charts so one click filters all views	• Add an export-to-PDF summary • Add forecasts for upcoming Games • Add annotated key takeaways
